

B e l s i z e B e s p o k e D e s i g n

We challenge standards in the Industry because there is much more in life than straight lines.

We believe that beautiful, happy and sustainable design should be available to any designer, builder, individual that is planning for a different future.

Hello & Welcome

BBD96 is the department of Omnide Studio working as design consultancy and procurement agency for professionals within the property and design industry.

OMNIDE is an architectural design studio seeking to address the rising demand of high-end quality design.

We are architects, designers, builders and thinkers operating within the fields of architecture, urbanism, research and development and have an open approach towards constructive and multidisciplinary collaboration that enables successful delivery of projects.

OMNIDE was funded by two partners in 2013 in London.

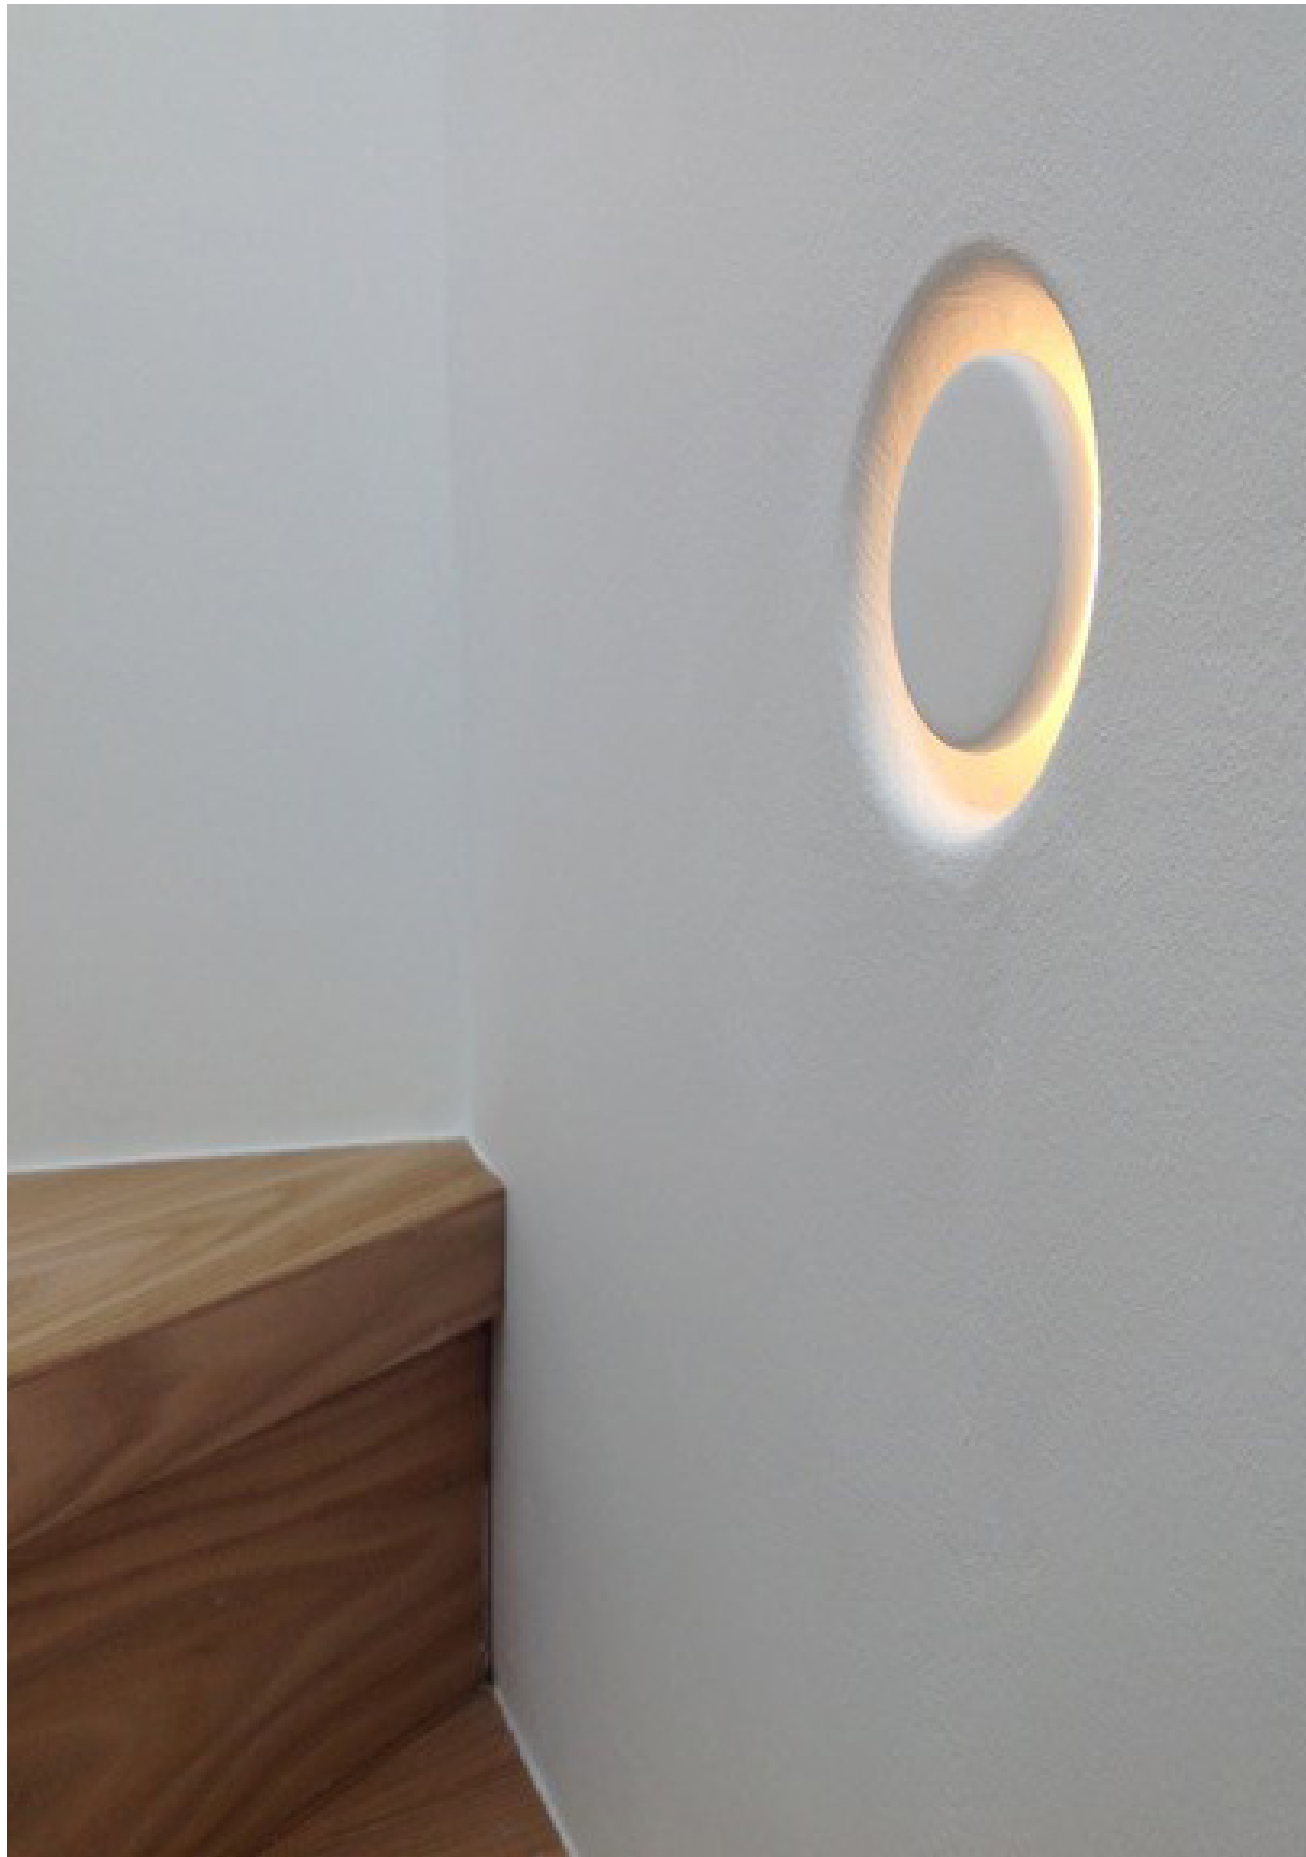

We approach every project with quality and individuality; we are also driven by the combined and diverse experience of our experienced partners located in Amsterdam, Mumbai, Nairobi and Rome.

Over the years, Omnide has developed extensive experience in the residential, retail and commercial fields ranging from new builds to refurbishments and conversions both in the UK and around the world.

THE WAY OF FITTING

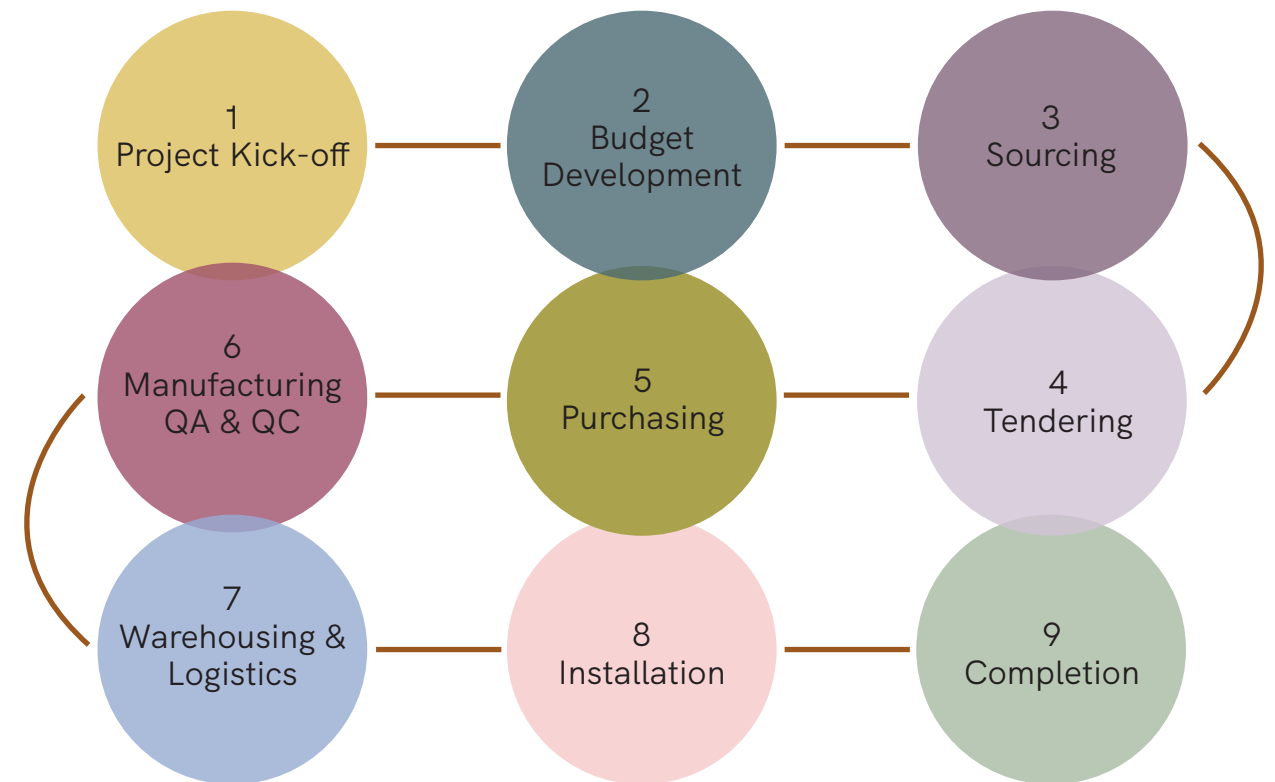

We pride ourselves for always delivering projects on time and within budget while remaining true to the original design aesthetic, and quality.

Our projects follow a 9 step process which we have developed over the years. There are many details and scope of work contained in each area, but as a broad spectrum,

here are the main steps in our FF&E procurement journey. (see road map attached to email body).

Throughout the procurement process, our clients will be provided with a multitude of reports to show data and progress.

Our reporting includes: tender comparison, purchase report, payments report, and more.

THE ART OF DESIGN: CREATING A PERFECT WORLD

A perfect combination for studying a correct balance between the budget and an amazing interior design.

Complete fitting-out

We are a leading in interior design projects development, space refurbishment and fit-out contractors based in London. We design, manufacture and install beautiful, bespoke furniture and joinery-led interiors for the most discerning clients. Our love for creativity, design and true craftsmanship is instilled in everything we do; from developing an initial client concept to hand-finishing a dovetail joint. BBD96 sees every project as a new opportunity to create something entirely unique. We always aim to offer a truly bespoke, concept-to-completion service, that is tailored to reflect the personality, lifestyle and unique characteristics of our clients. With an exceptional focus on quality and detail, our team will complement your aspirations and consistently exceed your expectations.

Bespoke solutions

As well as offering clients a fully bespoke concept-to-completion service, we provide architects, designers and construction professionals the enhanced ability to transform their ideas from concept into reality. From the very first meeting, a dedicated design and project management team will guide you through the process, listening to your requirements, offering advice and ultimately ensuring the success of your project. We take great care to really get to know our clients and it's because of this that we are able to create a product that will be truly unique and realise their dreams and ambitions. We believe that bespoke designs should do more than just fit together. They should blend with the character of your home, while reflecting your individuality. Every commission we receive benefits from our passion for precision and elegance. We take the time to not only understand your home but you as well, so we can tailor every feature and finish into something you'll adore.

LUXURY INTERIORS AND OUR TIPS TO CREATING THEM

Luxury interiors are a reflection of your unique style, crafted with the finest materials and meticulous attention to detail. By adhering to these tips, you can create an inviting, comfortable, and opulent living environment that truly defines luxury.

Luxury interiors are characterised by a seamless blend of opulence, sophistication, and comfort. They exude a sense of exclusivity and are a reflection of the homeowner's personal style and taste. To create such exquisite spaces, here are some essential tips to consider:

- **Quality Materials:** Start with high-quality materials such as fine woods, natural stones, and luxurious textiles. The use of premium materials sets the foundation for luxury interiors.
- **Attention to Detail:** Pay meticulous

attention to detail in every aspect of the design, from custom millwork and ornate mouldings to intricate hardware and finishes.

- **Timeless Elegance:** Opt for classic and timeless design elements that transcend trends. This ensures your interior remains stylish for years to come.
- **A Cohesive Colour Palette:** Stick to a carefully chosen colour palette that compliments the space and creates a harmonious atmosphere. Neutrals, rich jewel tones, and metallic accents are

often popular choices.

- **Statement Pieces:** Incorporate statement pieces, whether it's a grand chandelier, a unique piece of art, or a one-of-a-kind antique, to serve as focal points in the design.
- **Customisation:** Tailor your interior to your specific needs and preferences. Custom furniture and fixtures can create a truly personalised space.
- **Comfort and Functionality:** While aesthetics are crucial, luxury homes should also be comfortable and functional. Ensure that the design enhances everyday living.
- **Natural Light:** Maximise natural light through well-placed windows and mirrors. Light not only brightens the

space but also adds to the feeling of luxury.

- **Texture and Layering:** Incorporate a variety of textures and layering in your design, from plush carpets and silk drapes to tactile wall coverings, to create depth and visual interest.
- **Smart Technology:** Integrate the latest smart home technology for convenience and efficiency, from lighting and climate control to security systems.
- **Professional Guidance:** Consider working with an experienced interior designer who specialises in luxury interiors. Their expertise and network of resources can be invaluable in creating a truly lavish living space.

EXPERTISE

JOINERY:

Various projects between 2018-2023

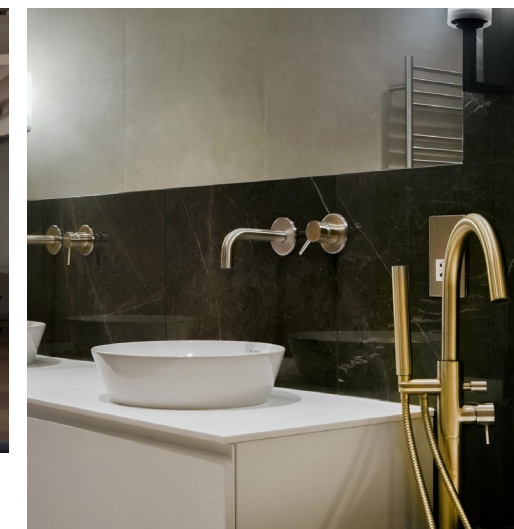

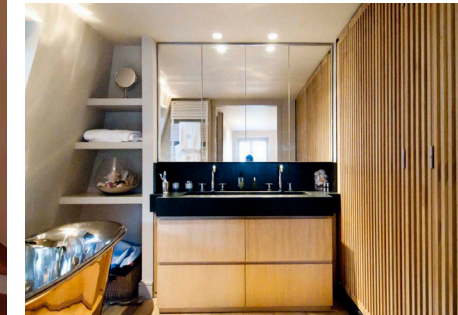

BUILT-IN FURNITURE WITH CHARACTER

At BBD96, we're passionate about creating beautiful and inspiring spaces. We design and build high-quality, bespoke kitchens, bathroom vanities, dressing rooms and joinery.

But we do more than that.

We work with the client - taking a holistic approach to deliver innovative spaces and experiences that reflect your personality and lifestyle.

That's why we have no ranges or off-the-shelf designs. Every design is one of a kind. With us, what you get is fresh, beautiful and truly unique. We're a boutique design firm who have always done things differently.

Bespoke Stairs

At BBD96 we can provide to design , supply and install a wide range of bespoke staircases. From the most basic straight flight to the most elaborate curved cut string stairs. We also manufacture various types of balustrading to complement our stairs including newel posts, caps, handrails (including hand carved and curved), base rails and all types of spindles.

We offer a survey and design service providing 2D and 3D CAD drawings. Producing all types of stairs in either a traditional or contemporary style in the materials and finish required. Once manufacture is complete our staircase installation team will remove your existing stairs, prepare the area and install the new stairs to your exact requirements.

We transform spaces by designing, creating and installing stunning staircases. We're here to help find your vision and create a centrepiece that's as unique as your home.

Kitchens

We design bespoke kitchens and furniture. A showcase of time-honoured modern and classic design and craftsmanship, we have been at the forefront of luxury, artisanal cabinetry. The essence of our projects is the consummate skill of its joiners who work using traditional craft

techniques. Working by hand with a plethora of materials, including the finest timbers such as sustainable European oak, rosewood, mahogany, American walnut and maple. The name of the joiner who has created each piece of furniture is inscribed on it as an ownership of craft.

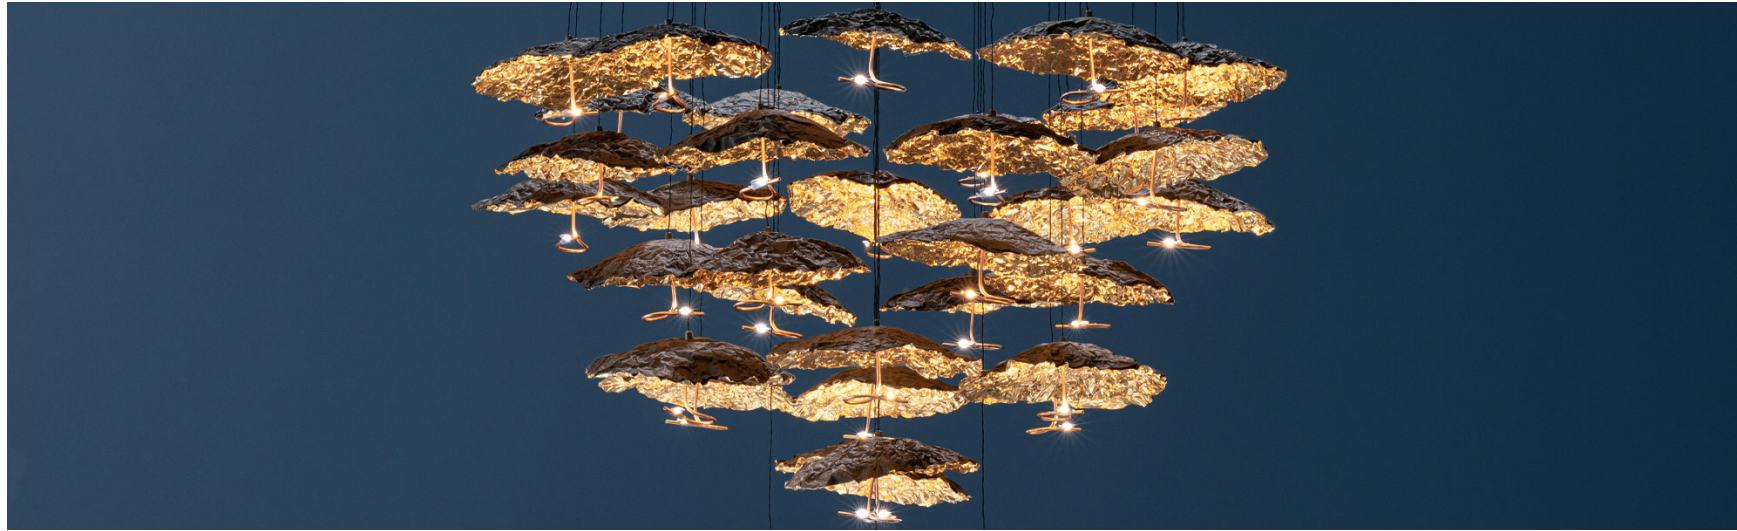

Our architectural approach to design means we consider the entire space the kitchen sits in, not just the product itself. We get involved early ensuring you strike the right balance between budget, aesthetic and functionality.

Our experience in managing home renovations means we understand the entire process and have designed our service accordingly, working closely with your designers and contractor, from the first sketch to the final fit.

Integrating eco-friendly materials into interior design requires a thoughtful approach that balances aesthetics with ethical considerations

Sustainable Design

Eco-Friendly Essentials: Selecting Sustainable Suppliers

Climate change and environmental degradation headline daily news, the interior design industry is not immune to the call for sustainability.

A sustainable design is only as robust as the supply chain it relies on. Identifying and collaborating with eco-friendly suppliers is a cornerstone in our quest to

promote sustainability. These suppliers are evaluated based on their environmental policies, the eco-friendliness of their materials, and their dedication to innovation and quality. It's a relationship built on shared values and a mutual understanding of the significant role design plays in environmental stewardship.
